Summary

Computer Engineering graduate with hands-on experience in React.js, JavaScript, Tailwind CSS, and .NET (C#). Skilled in building responsive web interfaces and interactive user experiences using modern frontend technologies and SQL databases. Completed internship as a .NET Developer, gaining practical experience in web application development and feature implementation. Passionate about learning new technologies, writing clean code, and growing as a software developer.

Experience

We3.Tech

Dec 2025 – Apr 2026

.NET Developer

Mumbai, India

- Developed and maintained web application features using C#, ASP.NET MVC, and SQL Server, focusing on improving application performance and functionality.
- Implemented MVC architecture to manage application structure, ensuring better separation of concerns and maintainable code.
- Worked on database queries and stored procedures in SQL Server, optimizing data retrieval and improving application efficiency.
- Assisted in integrating frontend components with backend logic, supporting smooth data flow between UI and server-side functionality.

Unified Mentor Private Limited

Apr 2025 – May 2025

Frontend Web Developer

Remote

- Built responsive and mobile-friendly UI components using React.js and Tailwind CSS, ensuring cross-browser compatibility and improved user experience.
- Developed and optimized reusable React components to improve code maintainability and development efficiency.
- Collaborated with the development team to implement frontend features and improve UI performance across web pages.
- Managed application state and dynamic UI updates using React hooks, improving interactivity and user experience.

Prodigy InfoTech

Apr 2025

Web Developer Intern

Remote

- Delivered assigned frontend features using HTML, CSS, and JavaScript within a focused one-month engagement, meeting all project deadlines.
- Applied responsive design best practices to ensure optimal UI rendering across desktop and mobile viewports for all end users.
- Diagnosed and resolved UI bugs in collaboration with the development team, producing clean, maintainable code aligned with project coding standards.

Projects

LeetMetric-App

- Developed a web application to track and visualize LeetCode progress using detailed statistics.
- Integrated features to display problem-solving breakdowns by difficulty (Easy, Medium, Hard).
- Focused on creating an intuitive UI to help developers stay motivated during interview preparation.

Study-Sync

- Designed and developed a fully responsive multi-section landing page using HTML and CSS.
- Structured content into intuitive sections including features, testimonials, and newsletter sign-up.
- Optimized for professional presentation and seamless cross-device compatibility.

Education

Theem College of Engineering

Bachelor of Computer Engineering (CGPI: 7.07)

Aug 2021 – Apr 2025

Boisar, Maharashtra

Maharashtra State Board

HSC (Higher Secondary Certificate)

2021

76.17%

Maharashtra State Board

SSC (Secondary School Certificate)

2019

75.80%

Technical Skills

Languages	JavaScript (ES6+), C#, SQL, HTML5, CSS3
Frameworks & Libs	React.js, ASP.NET, Tailwind CSS, Bootstrap
Database & Tools	SQL Server, SQL Server Management Studio (SSMS), Git, GitHub

Certifications & Presentations

AWS Academy Graduate – Data Engineering

Oct 2024

AWS Academy

- Completed 40 hours of training in AWS-based data engineering concepts.
- Credential verified via AWS Academy Digital Badge.

Paper Presentation – NFT Bazar Using Blockchain

Apr 2025

4th International Conference (THEEM-2025), Boisar

- Presented research on NFT Marketplace using Blockchain technology.
- Demonstrated understanding of decentralized systems and emerging technologies.
- Participated in an international-level technical conference.

Workshop Certification – Data Science Using Python

Jan – Feb 2023

LiveTech India & Theem College of Engineering

- Completed 5-day hands-on workshop covering Python basics and data analysis.
- Strengthened foundational knowledge in data handling and practical implementation.
